*We believe the future of home is not just
“smart”—it’s thoughtful, beautiful, and truly life-enhancing.*

Company background

Lumisync Smart Home is a Singapore-based company offering high-quality, customizable whole-home automation solutions for homeowners and businesses. We are not just technology integrators — we are curators of modern lifestyles.

*Founded in 2024 by building automation expert **ZunFay** and interior lighting designer **Aden Lau**, Lumisync was born from a shared mission: to bring the professional-grade automation and lighting aesthetics once reserved for commercial spaces into the homes of everyday people.*

We believe true smart living isn’t about cold, complex technology, but about seamlessly blending convenience, comfort, and beauty into everyday life. Whether it’s a new home, a retrofit, or a commercial space, we deliver professional, efficient, and visually harmonious smart home solutions.

our
sim

VISION

Our vision is to redefine the modern home by making high-end smart living accessible, intuitive, and beautifully integrated for every household.

We envision a future where intelligent living is no longer a luxury, but a standard—empowering every homeowner to live more effortlessly, beautifully, and consciously.

7

CORE VALUES

Cutting-edge R&D and Technological Advancements

We are committed to continuously introducing and developing cutting-edge technologies, applying artificial intelligence, the Internet of Things (IoT), and big data analytics to create industry-leading smart home solutions.

Driven by Customer Needs

Placing customers at the heart of everything we do, we provide fully customized smart home, networking, and security solutions tailored to individual lifestyles and property requirements, ensuring a thoughtful and professional experience for every

Reliable, Long-Term Performance

We understand that customers seek more than short-term convenience—they value lasting reliability. Lumisync guarantees high-quality, proven systems and expert services that ensure long-term safety and intelligence for their homes.

Mission

Designing the Future of Home

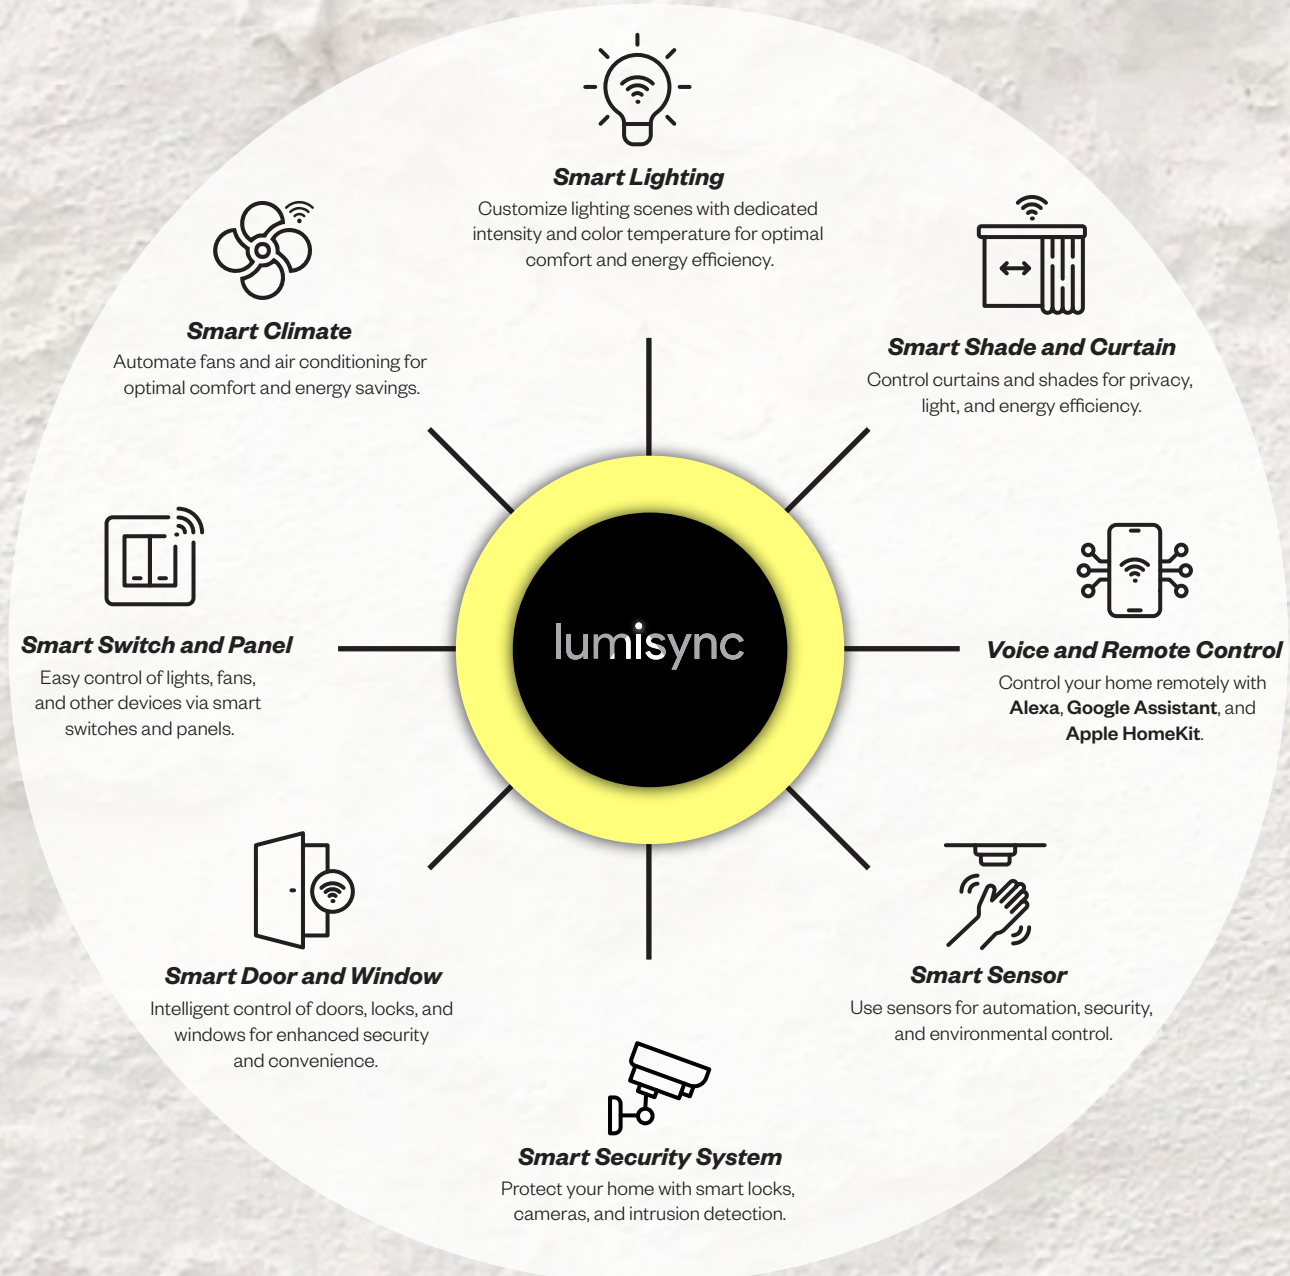

At Lumisync, our mission is to bring professional-grade automation and lighting aesthetics into everyday homes—helping people live smarter, more beautifully, and more sustainably.

We strive to deliver tailored, intuitive, and future-ready solutions that enhance the way people live, one home at a time.

Our Business

More than just Smart Homes.
We create personalized automation and design,
tailored to your lifestyle.

Home Automation and Design

Our Technology

We leverage existing, mature, and advanced technologies such as unlimited **WiFi, Zigbee, and BLE** to build a stable and reliable wireless system.

This enables us to create cost-effective, high-stability systems that bring comfortable smart living to homes everywhere.

Our Service

ONE-STOP SMART LIVING SOLUTIONS

Lumisync follows a structured, detail-oriented workflow to ensure every smart home or smart space is built with precision, performance, and peace of mind.

1

A

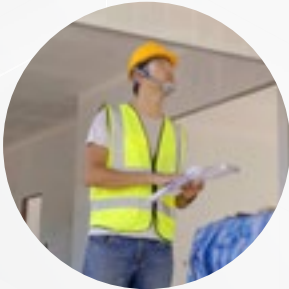

Step 1. System Planning

We design smart systems that suit your space and lifestyle.

- Conduct on-site assessment or review floorplan
- Understand client needs, habits, and renovation timeline
- Recommend compatible devices, brands, and platforms
- Ensure product selection fits budget and future expansion needs
- Deliver detailed wiring, device layout, and control logic plans

✗ Avoids: Underpowered networks, incompatible brands, or missing control points later on.

2

X

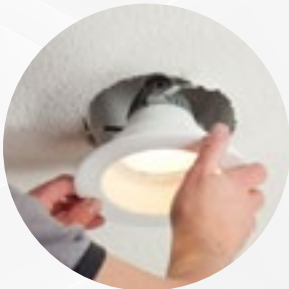

Step 2. Project Coordination

We work closely with all parties involved in your renovation.

- Liaise with interior designers, contractors, electricians
- Provide clear device locations and installation requirements
- Plan cable routing, device positions, and false ceiling needs
- Adjust plans based on on-site changes or design revisions
- Provide updated layouts and schedules to all parties

✗ Avoids: Last-minute clashes, wrong wiring points, and rework costs.

3

W

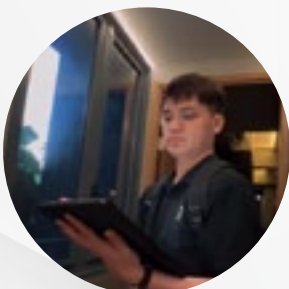

Step 3. Professional Installation

Our trained technicians deliver clean, safe, and reliable work.

- Pre-test all devices before installation
- Connect smart device according to smart system standards
- Mount devices securely with minimal wall damage
- Follow proper protocols for low-voltage, protocol-specific setups
- Coordinate power-on tests with site supervisor or owner

✗ Avoids: Loose connections, unsafe setups, or messy workmanship.

4

U

Step 4: System Configuration

We fine-tune the system to work exactly the way you want.

- Pair all smart devices and link them to the central system.
- Set up scenes (e.g. Movie Mode, Goodnight Mode, Away Mode)
- Link voice assistants (Google, Siri, Alexa)
- Program automation rules, schedules, and sensor triggers
- Ensure cross-device integration and latency-free control

✗ Avoids: Confusing control interfaces, incomplete automations, or untrained users.

Our Service

POST-WORK SUPPORT & CUSTOMER CARE

Our job doesn't end after installation — we're here to ensure you enjoy a smooth, worry-free smart living experience.

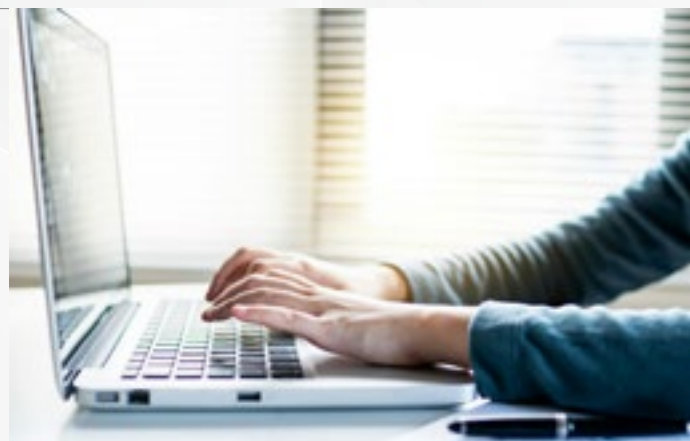

1-on-1 Training & App Guidebook

We provide personalized hands-on training to show you how to use your smart home system with confidence. Every project comes with a customized App Setup & User Guidebook for easy reference.

Remote Technical Support

Our team provides dedicated remote support to help you troubleshoot, reconfigure, or update your system — without the need for an on-site visit.

3 YEAR WARRANTY

3-Year Product Warranty

All smart devices supplied by Lumisync come with a 3-year limited warranty covering manufacturing defects, giving you peace of mind and reliable system performance.

Dedicated Support Hotline

Our customer support hotline is available to assist you with system inquiries, booking service appointments, and general usage guidance. Whether it's your first week or your third year with Lumisync, —we're always here to help.

Smart Camera C1

1080P Full HD Clarity, Day and Night

Capture every detail with 1080P resolution and 2 million pixels for sharp, vivid images.

360° Protection, No Blind Spots

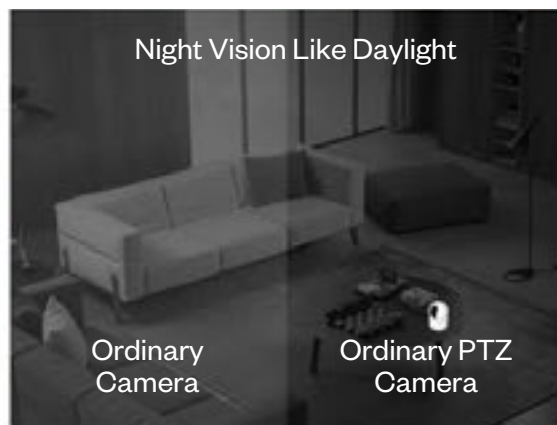

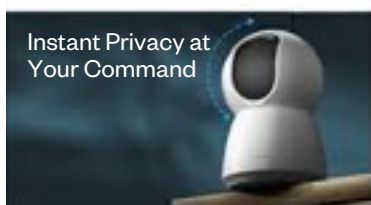

Enjoy seamless security with 355° horizontal and 60° vertical panoramic patrol coverage.

Night Vision Like Daylight

Powered by 8 infrared lights and a large-aperture lens, delivering clear vision even in total darkness up to 10 meters.

Instant Privacy at Your Command

Safeguard your personal space anytime with a physical lens cover and remote privacy mode.

2K Clarity, Smart Detection, Continuous Protection.

Giant Eye Vision, Smarter Protection

Smart 2K Camera S1

Expansive 2K Ultra HD View

Capture every detail with 3 million pixels, 360° horizontal rotation, and a 210° vertical angle.

AI Human Detection Alerts

Get notified only when real people are detected — no false alarms.

Smart Motion Tracking

Follow movement automatically to capture every precious or critical moment.

One-Touch Privacy Shield

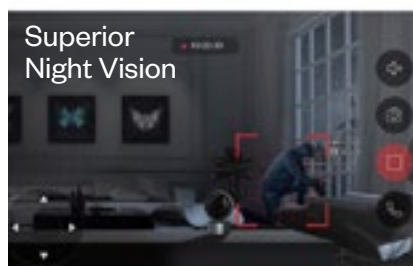

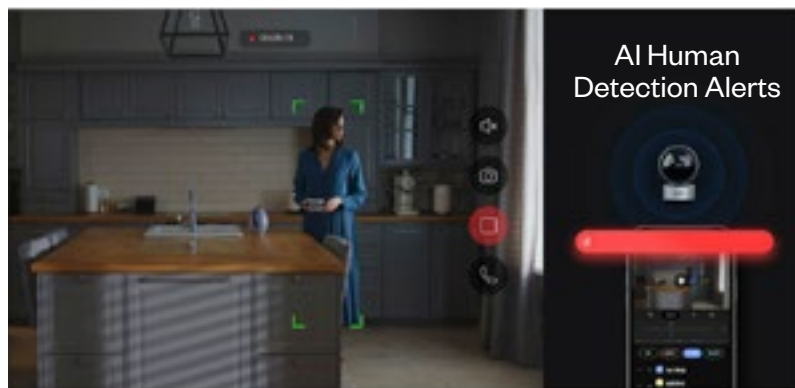

Easily block the camera's view with a single tap for total peace of mind.

Intelligent Cry Monitoring

Instantly know when your baby needs you with smart sound detection.

Superior Night Vision

10m infrared range, enhanced by a CMOS ultra-sensitive sensor and F2.0 wide aperture, for crystal-clear images even in the dark.

Real-time monitoring of temperature and humidity

Smart Temperature and Humidity Sensor

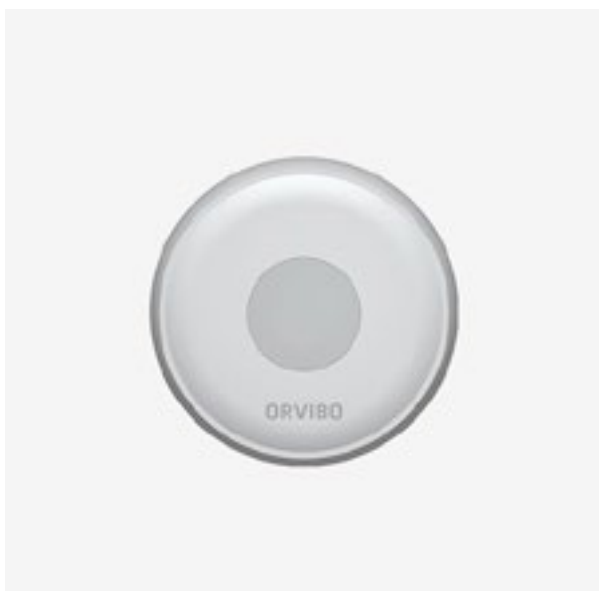

- Instant temperature and humidity updates.
- High-precision sensing for reliable comfort.
- Link effortlessly with all smart devices.

Monitor smoke levels in real time to stop danger before it spreads.

Smart Smoke Sensor

- Real-time smoke detection for early warning.
- Reliable, high-sensitivity photoelectric sensor.
- Low-power Zigbee for faster, safer alerts.
- 85dB loud alarm for instant danger response.

One-Click SOS Alert

Smart Emergency Button

- One-touch phone alarm.
- Push notifications for immediate attention.
- Long-lasting power with ultra-low consumption.

Real-time detection of water anomalies with instant alerts

Smart Water Leak Sensor

- Instantly detect water leakage, overflow, and water level changes.
- Local light alarm and remote push notifications for immediate response.

Sensitive gas leak detection to stop danger before it spreads

Smart Combustible Gas Sensor

- Imported semiconductor sensor, rock-solid reliability.
- High-precision monitoring, pinpoint gas threats.
- Emergency phone alerts, act before it's too late.

One Remote, Total Control

Magic dot Smart Infrared Remote Control

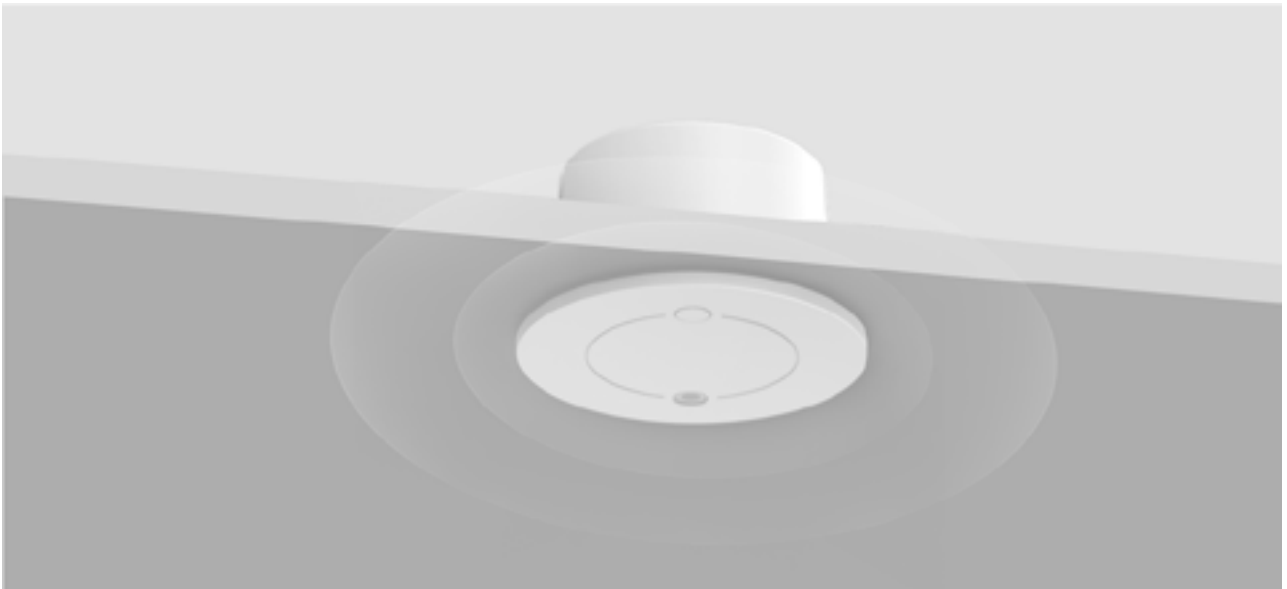

- One-tap command for all devices.
- Instantly link air conditioners, TVs, fans and more.
- 360° full-range infrared coverage, no blind spots.
- Zigbee-enabled for faster, smarter control.

Instant Sensing, Smarter Security

Door and Window Sensor

- Real-time door and window status on your app.
- No installation — ready to go.

Automotive-Grade Human Sensing

MixSense S360- Occupancy Sensor

- 24 GHz millimeter-wave radar for unmatched precision.
- Recognizes 12 distinct human states in real time.
- 12 m detection radius for full-room coverage.
- Triggers smart lighting based on your presence.

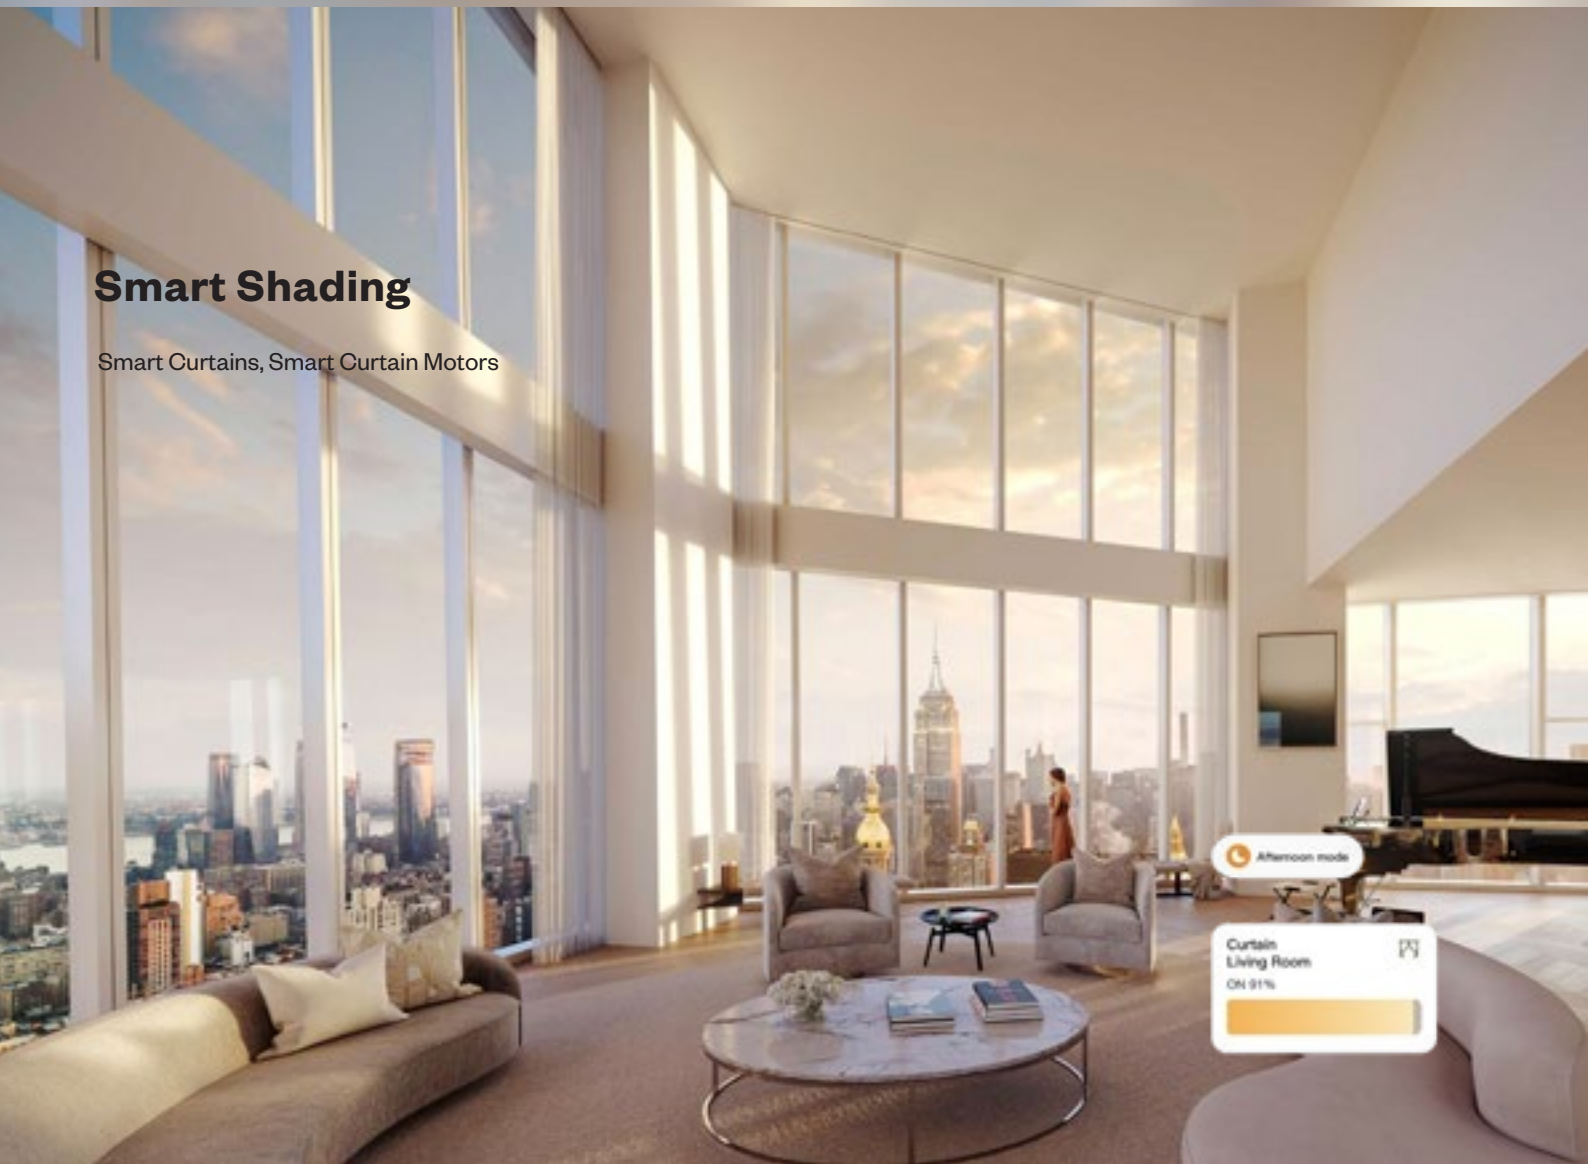

Smart Security, Seamless Connection

Smart Motion Sensor

- Family scene integration: Lights turn on when you arrive.
- Departure mode: Instant alerts for any break-in attempts.
- Easy setup: Tool-free, ready in three simple steps.

Smart Shading

Smart Curtains, Smart Curtain Motors

Complete Smart Shading Kit
Includes motor, track, remote, and long-life lithium battery.

Effortless Installation

Dual Ultra-Quiet
Mechanism

Intuitive

Control

Compact Powerhouse: High-Torque

Wiring-Free Smart Curtain Motor Kit

Powerful Compact Motor

Sleek design meets high-precision DC torque—effortlessly drives curtains up to 40 kg.

Long Lifespan, Premium Build

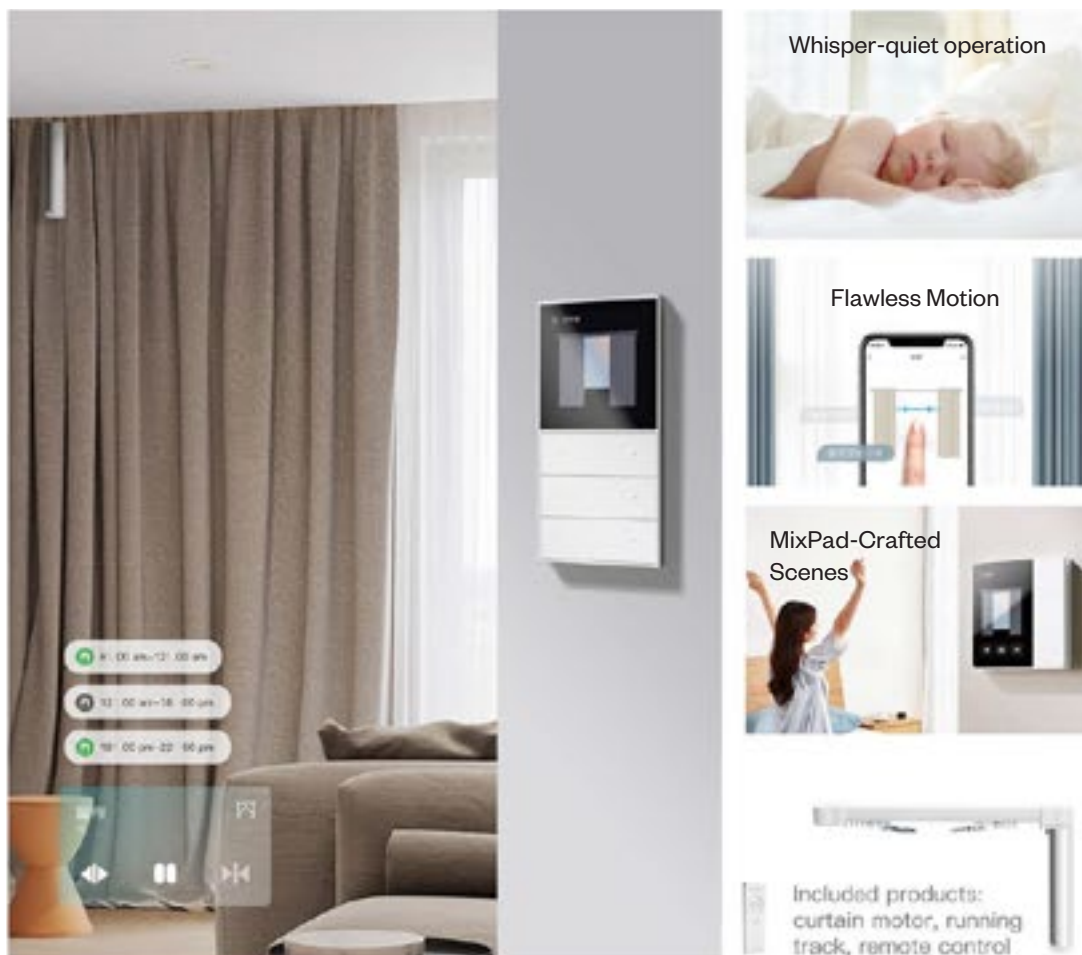

High-durability motor rated for over 20,000 operation cycles, engineered for daily use over many years

Whisper-Quiet Performance

Dual ultra-quiet gearing runs below 35 dB for serene home ambience.

Ultimate Control Flexibility

Manage via app, remote, touch panel, or voice—works seamlessly with Alexa and Google Assistant.

Silent Power, Effortless Elegance

ZigBee Ultra-Silence Smart Curtain Motor Kit

Versatile Control

App, remote, touch, or voice—compatible with Alexa & Google Assistant.

Effortless Heavy-Duty Pull

German high-torque motor with a 20-year lifespan handles even the heaviest curtains.

Premium Alloy Track

2.2 mm thickness supports up to 50 kg for uncompromised durability.

100 m Zigbee Coverage

Next-gen Zigbee outperforms mainstream setups by 10× for seamless large-space linking.

Whisper-Quiet Gearing

Ultra-quiet planetary gears operate below 35 dB for peaceful living.

Effortless Elegance,
Intelligent Comfort.

Light Choreography, Elegance Revealed

3D Smart Lighting Curtain

Sculpted 3D Light & Shadow

Ripple-wave curtains in Pattaya high-polymer fabric deliver exquisite drape and dynamic translucence

Seamless Signal Penetration

Zigbee 3.0 for millisecond response and reliable connectivity through walls up to 85 m.

Whisper-Quiet Operation (30 dB)

Spiral-bevel gear technology ensures ultra-silent performance.

Adaptive Brightness Control

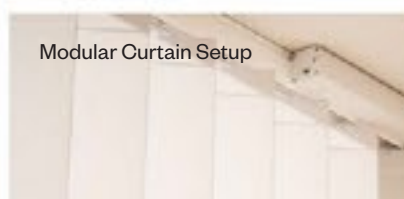

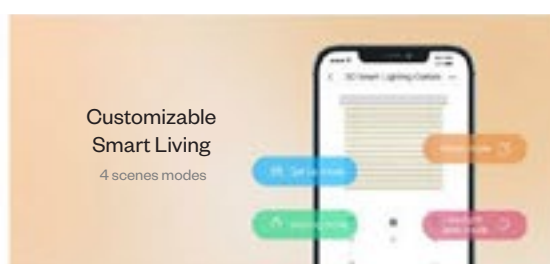

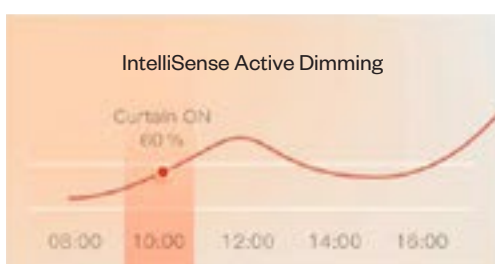

MixSense S360 auto-detects light levels, while MixPad lets you fine-tune each slat in five precise increments.

Tailored Scene Modes

Four customizable presets—Wake, Sleep, Guest, Dim—designed around your daily rhythms.

Dynamic Light Sculpting

Effortlessly rotate slats to shape natural light exactly as you envision.

Smart Rolling, Effortless Living.

Zigbee Tubular Motor

Compact Power for Every Blind

Slim tubular motor with high-torque DC drive, effortlessly lifting blinds up to 40kg.

Ultra-Quiet Operation for Pure Serenity

Advanced dual-noise reduction keeps movement smooth and silent, operating under 35dB.

Smarter Control, Your Way

Supports app, remote, touch, and voice control, fully compatible with Amazon Alexa and Google Assistant.

Long Lifespan, Premium Build

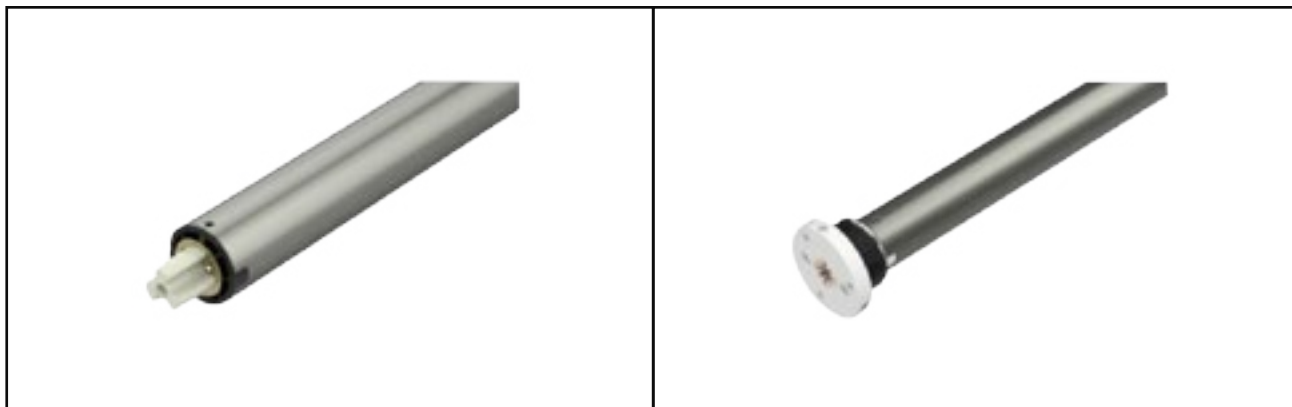

High-durability motor rated for over 20,000 operation cycles, engineered for daily use over many years.

Instant Scene Automation

Trigger scenes, blinds open and close automatically based on your schedule or smart home triggers.

Safe and Child-Friendly

Motorized operation eliminates the need for cords, creating a safer environment for children and pets.

Networking and Surveillance System

Networking & Surveillance system

Transform your space with a next-generation networking and surveillance system—combining ultra-fast, stable connectivity with intelligent monitoring solutions. Experience real-time alerts, crystal-clear imaging, and seamless integration with your smart devices, ensuring uncompromised protection, smooth operations, and absolute peace of mind, 24/7.

Blazing Fast. Seamlessly Connected

RG-RAP72Pro Ceiling Access Point

Blazing-Fast Speeds Up to 5Gbps

Unlock next-gen wireless performance with WiFi 7 (802.11be) — perfect for UHD streaming, low-latency gaming, and high-speed file transfers.

Connect Up to 512 Devices Smoothly

Optimized for high-density environments with MU-MIMO and OFDMA, ensuring every device runs lag-free — from laptops to smart IoT devices.

Smart Mesh, Easy Setup

One-click Reye Mesh networking lets you build seamless whole-home or whole-office coverage, no networking expertise required.

Reliable Signal, Wide Coverage

Equipped with advanced antenna design and professional-grade chipsets to deliver stable coverage across walls and multiple floors.

Effortless Remote Management

Manage, monitor, and optimize your network in real time with the intuitive Ruijie Cloud and Reye App — from anywhere, anytime.

Future-Ready, Backward Compatible

Full support for WiFi 6/5/4 and advanced security protocols (WPA3) — giving you performance today, compatibility tomorrow.

Next-Gen Wireless, Perfectly Mounted

RG-RAP72-Wall Pro Ceiling Access Point

Blazing-Fast Speeds Up to 5Gbps

Supports the latest Wi-Fi 7 (802.11be) standard, delivering data rates up to 3.6 Gbps.

2.5 Gbps Uplink Port

Equipped with a 2.5 Gbps uplink port for ultra-high-speed indoor access.

PoE Output for IoT Devices

Features PoE output capability to power devices such as IP phones and other IoT devices.

Ultra-Slim Design

Compact design with a thickness of 24 mm, suitable for aesthetic installations.

Advanced Wi-Fi 7 Technologies

Incorporates features like 4K-QAM, Multi-Link Operation (MLO), and Multi-Resource Unit (MRU) for enhanced performance.

Cloud Management

Manage the entire network through Ruijie Cloud for simplified network operations.

Next-Gen Wireless, Perfectly Mounted

Smart ColorVu Mini Bullet Network Camera

8MP Ultra HD Clarity

Delivers stunning 3840×2160 resolution for crystal-clear images and unmatched detail in every frame.

ColorVu Full-Color Night Vision

Captures vibrant, full-color video even in low-light conditions — 24/7 visibility without compromise.

Smart Dual Light System

Automatically switches between infrared and white light based on ambient lighting to ensure optimal visibility at all times.

AI-Powered Human & Vehicle Detection

Built-in deep learning analytics accurately distinguish between people and vehicles, reducing false alarms and improving security accuracy.

Integrated Two-Way Audio

Equipped with microphone and speaker for real-time communication and audio recording — perfect for interactive monitoring.

Industrial-Grade Durability

IP67 waterproof and dustproof, plus NEMA 4X-rated for corrosion resistance — ideal for tough outdoor environments.

See Every Detail, Day or Night.

Smart ColorVu Fixed Turret Network Camera

8MP Ultra HD Clarity

Equipped with a 1/1.8" progressive scan CMOS sensor, delivering 3840×2160 resolution for crystal-clear footage in any scenario.

ColorVu Technology for Full-Color Night Vision

Maintains vibrant color imaging even in ultra-low-light conditions — providing round-the-clock surveillance without missing details.

Smart Dual-Light Illumination

Integrated IR and white light with three intelligent lighting modes ensures optimal visibility and automatic adjustment based on the environment.

Built-in Dual Microphones

Dual-array microphones capture high-fidelity audio, offering enhanced situational awareness.

Rugged Weather & Corrosion Resistance

IP67 waterproof rating and NEMA 4X corrosion protection make it ideal for tough outdoor conditions.

130dB Wide Dynamic Range & EIS

Handles complex lighting environments like backlight or glare, ensuring consistent, balanced visuals with Electronic Image Stabilization.
